

Business Profile

Port Safety Services was founded in 2021 as a new corporate entity spun off from Safetran Site Safety Services, a health safety and environmental consulting firm originally formed in 1999. PSS is a registered field evaluation team of board certified safety consultants, court approved with over 90 collective years in our industry. We offer proactive workplace safety evaluation services to intermodal container ports, and consulting to legal counsel (post incident).

Our Service Portfolio

3rd Party Field HSE / Industrial Hygiene Inspection

- Container Port Workplace Hazard Assessments
- Equipment Operator evaluations of listed hoisting equipment and machinery per OSHA regulations.
- Expert Witness, Post Incident Investigation
- Defective equipment evaluations.
- Toxic Substances & Hazardous Materials exposures
